## INSTRUCTION MANUAL

### Safety information

Please read the safety instructions carefully before using the product for the first time and keep the instructions for future reference.

1. This product is not a toy. Keep it out of the reach of children.
2. Warning: This product includes are chargeable lithium ion battery.
3. Keep product out of the reach of children and pets to avoid chewing and swallowing.
4. Product operating and storage temperature is from 0 degrees Celsius to 40 degrees Celsius. Environments under and above this temperature might affect functionality.
5. Never open the product. Do not touch the inside electronics, or you may get an electric shock. Repair or service are only to be performed by qualified personnel.
6. Do not expose to heat, water, dust (dusty environment), moisture, direct sunlight!
7. Please protect your ears against loud volumes. Loud volumes can damage your ears and lead to hearing loss.
8. Bluetooth wireless technology can only operate within a range of about 10m (30 ft). The maximum communication distance may vary depending on the presence of obstacles(people,metal objects, walls, etc.) or the electromagnetic environment.

9. Microwaves emitted by a Bluetooth device may affect the operation of electronic medical devices.
10. If water or foreign objects enter the unit, it may result in fire or electric shock. If water or a foreign object enters the unit, stop using it immediately.
11. Only charge with the supplied USB cable.
12. This product doesn't support harmonized fast charging.
13. Do not use non original accessories together with the product as this can make the product functionality abnormal.
14. Do not block the ventilation openings. The product needs them to disperse heat.

Denver A/s reserve the rights for print errors  
Denver A/s cannot be held responsible for any technical or typographical errors and reserves the right to make changes to the product and manuals without prior notice. If you detect any inaccuracies or omissions, please inform us at the address on the back cover.

**PLEASE READ ALL INSTRUCTIONS  
CAREFULLY AND RETAIN FOR FUTURE USE**

## PACKAGE CONTENTS:

- . Speaker
- . Wired microphone
- . Charging Cable
- . Remote
- . Instruction Manual

## TECHNICAL SPECIFICATIONS

- . Speaker: 12W
- . Working Distance: 10 Meters
- . Battery Lithium battery: 3.7V, 2400mAh
- . Rated Voltage: DC 5V/1000MA
- . Charging time: 4 -5 hours
- . Play time: up to 3 hours
- . Power consumption (in off mode): 0.5W
- . Power consumption (standby in BT/SD/USB/AUX): 0.8W
- . Function: BT/AUX/USB/SD card/TWS/Mic in

Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed-out trash can symbol, seen above. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility.

In this manner you make sure that the batteries are recycled in accordance with the legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Denver A/S declares that the radio equipment type TSP-307 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: [denver.eu](http://denver.eu) and then click the search ICON on topline of website. Write model number: TSP-307. Now enter product page, and RED directive is found under downloads/other downloads.  
Operating Frequency Range: 70Hz-18Khz  
Max Output Power: 12W
