If you have used Bluetooth connection before, the system will search for the device last connected. When the device is found, the system will reconnect automatically.

Pairing a Bluetooth Device for the First Time

- 1.Turn the unit on. You'll hear an alert tone.
- 2.Turn on your external device. Refer to its user manual for instructions on pairing and connecting Bluetooth devices.

- 3.Using the native controls on your Bluetooth device, select "BTP-103" in your Bluetooth settings to pair.
- 4.When successfully paired and connected, the unit will emit an alert tone. After the initial pairing, the unit will stay paired unless unpaired manually by the user.

FAQ

- 1.Do not use abrasive cleaners to clean this product.
- 2.Keep this product away from fire or heat sources, such as cooking stoves.
- 3.Do not expose this product to direct sunlight for a long time.
- 4.Do not throw this product into the fire to avoid an explosion.
- 5.Never attempt to disassemble or modify this product, as it contains no after-service components.
- 6.Do not use this product in the rain.
- 7.If you do not plan to use this product for a long time, please store it in a dry environment and charge the speaker at least once a month to extend its life and avoid extreme temperatures and dust.

Please notice - All products are subject to change without any notice. We take reservations for errors and omissions in the manual.

ALL RIGHTS RESERVED, COPYRIGHT DENVER A/S

Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility. In this manner you make sure that the batteries are recycled in accordance with legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Denver A/S declares that the radio equipment type BTP-103 , is in compliance with Directive 2014/53/EU. The full text of the RED declaration of conformity is available at the following internet address: denver.eu and then click the search ICON on topline of website. Write model number: BTP-103 . Now enter product page, and RED directive is found under downloads/other downloads.

Information on standby/off mode power consumption and power management for products compliant with Commission Regulation (EU) 2023/826 can be found at the following internet address: denver.eu and then click the search ICON on topline of website. Write model number: BTP-103 and enter the page. Operating Frequency Range: 2.402-2.480 GHz Max Output Power: 2.06 dBm
