SAFETY INSTRUCTIONS

Please read the safety instructions carefully before using the product for the first time and keep the instructions for future reference.

- Warning: This product has a built-in lithium polymer battery.
- Do not expose this product to rain or damp conditions. Product is not waterproof.
- Never use dust blower on sharp elements such as broken glass.
- Keep the product out of reach of children and pets to avoid chewing and swallowing.
- Prevent this item from falling as it could cause serious damage.
- Product operating and storage temperature is from 0 degrees Celsius to 40 degrees Celsius. Under and over this temperature might affect the function.
- Never open the product battery compartment. Touching the inside electronics can cause electric shock. Repairs or service should only be performed by qualified personnel.
- Do not place this item near sources of water or expose to direct sunlight.
- Do not use non-original accessories together with the product as this can make the product functionality abnormal.

ENG 1

PRODUCT DESCRIPTION

- On/off button
- USB-C Charging port
- Digital display screen
- Air outlet
- Short air blowing Nozzle head
- Flashlight
- Flashlight Switch button
- Long air blowing Nozzle head

CONTROL KEY FUNCTIONS

ON/OFF Button

Press & Hold: Power on
Press Once: From L1 to L5 Wind Speed Level
Press twice in a row: Max. Wind Speed Mode
Press & Hold Again: Power OFF

Flashlight Switch Button

Press Once: Flashlight ON
Press Once again: Flashlight OFF

ENG 2

Charging:

Use the provided USB-C charging cable to charge the product. Connect one end of the cable to a suitable power supply and the other end to the product's USB-C charging port. During charging, the display will sequentially show numbers from 0 to 100, indicating a full charge when it reaches 100.

Important note: The product must be fully charged to function properly. If the product's power is very low, the blowing effect won't be as effective.

Installation and Operation:
Attach the blowing head to the jet blower by turning it to the left on a specific place on the head until you feel it go into place.
Press and hold the On/Off button to turn it on.

Press the On/Off button briefly to cycle through the five different wind speeds (L1-L5).

Press twice in a row to get the maximum wind speed.

When you are finished, press and hold the button again to turn it off.

ENG 3

Note:

- You will already have the short air blowing head attached to the jet blower. To use a different air blowing head, please detach the short blowing head by turning it to the right.
- The blowing speed depends on the battery charge. Therefore, it is recommended that you fully charge the battery each time before use.

Precision tool for diverse scenarios for reference:
